Florida, Miami | brianordonez6994@gmail.com | 305-850-1540 | www.brianordonez.xyz | <https://github.com/BrianOrdonez>

Summary

Front-end developer with a strong personal portfolio. Well-versed in the front-end ecosystem and quick to adopt and master new technologies that arise. Armed with a great understanding of front and backend development. Looking to enhance my professional web development experience

Skills

Html, Css, JavaScript, React, Vue, Node, Sass, Git, Wordpress

Projects

CryptoCurrency API:

<https://cryptoapidemo.netlify.app/>

<https://github.com/BrianOrdonez/yarn>

- Created a React/Next.js project that shows off 10 popular cryptocurrencies in real time. It utilizes a Crypto API that also includes a search feature so you can search for a specific crypto
- Technologies Used: HTML, CSS, JavaScript, React, Next.js

Wordpress E-commerce store:

<https://briord1.dreamhosters.com/>

- Designed and launched wordpress site that could be changed from a demo to a real world ecommerce store if needed and the shopping cart supports paypal, bitcoin, stripe, and apple/google pay
- Technologies Used: Wordpress, PHP

KFC:

<https://kfcdemo1.netlify.app/>

<https://github.com/BrianOrdonez/kfc-demo>

- A simple example of my css skills to be able to make a beautiful landing page
- Technologies Used: Html, Css, Bootstrap
